

## Design Consciousnes

- We are constantly aware of clients, needs (requirements), budgets and timelines
- We constantly update ourselves in use of material and technology to give the optimum solutions
- We help our clients reach the psychological advantage in terms of aesthetics and functionality

Besides all this we have

- a proven track record
- collective experience of over 30 years
- lasting client relationships

And now, we are working towards achieving LEED & Sustainability Standards in our designs.

## Design Consultancy

Our core team of design professionals and associates believes in the ethic of 'aesthetics that work'. Thus, they ensure that our innovative design solutions meet the highest standards in terms of contemporary looks and functionality, We offers customers a distinctive advantage over competitors by incorporating the latest developments in home furnishing.

For our customers, this offers value in terms of design, colour and contemporary trends. Product differentiation is also assured through our customised design services. In-house and computer-aided design helps our designers realize their creations and convert them into real form with speed and ease. Each design is patented and offered in a variety of unconventional colour combinations, which are finalised after extensive sampling.

## Turnkey solutions

Even if you are setting up a new office, you can depend on our professional capabilities, manpower and resources. If yours is already a running establishment, count on our expertise to contribute to its growth with evergreen ideas. That's simply because our solutions include the design and execution of every aspect – civil works, interior designing and execution, HVAC, electrical works, fire protection/alarm systems, access control, LAN and data cabling, electronic surveillance and video conferencing equipment installations... Our unique 'single window' access enables you to communicate with us and follow up, right from the beginning to the end of the project – and afterwards. Imagine the savings to you in terms of costly hours that would otherwise have been flittered away in coordination and communication while getting the project completed.

## Proficiency in Interior Creativity

### Our Concept

- To encourage design as a conscious effort.
- Commitment is what transforms a promise into reality.
- "Design is not just what it looks and feels. Design is how it works" – Steven Jobs
- At J3DE when we take on a project, we also take on the responsibility not just of aesthetics, but functionality as well.

At J3DE each project with its diversity, challenges and opportunities makes us walk a new path that stimulate our curiosity and creative thinking. Therefore each project is approached as a new original territory without pre-conceived notions or ideas. The J3DE team brings together a special blend of talent, discipline through technical expertise and instinct that brings success to the project. We at J3DE work with a user-centric philosophy, based on listening to our clients and providing innovative solutions, on schedule, within budget. We encourage continuous client-user participation throughout the project life. This helps foster productive interaction and build strong relationships. Our approach to design is tailor made to the owner's program, scope, timeline and budget. Good design is truly innovative, eminently sensible and source of inspiration for those who have the pleasure of living, working or just experiencing it.
